

## **Medical Plan Sponsored by All Children's Health System, Inc. CDP and OAP Options**

### **Summary Plan Description Pharmacy Benefit Supplement**

This document supplements the Pharmacy Benefit section of the Summary Plan Description for the CDP and OAP Options under the Medical Plan administered by Allegiance Benefit Plan Management.

#### **PrudentRx Copay Program for Specialty Medications**

The PrudentRx Copay Program helps you enroll in drug manufacturer copay/coinsurance assistance programs for specialty medications on the PrudentRx Program Drug List. For a copy of the List, contact PrudentRx at 800-578-4403. The Program Drug List is subject to change and is updated frequently.

Copay/coinsurance assistance is a process by which drug manufacturers cover most or all of a patient's copay/coinsurance requirement for certain specialty medications. The PrudentRx Program will help you obtain copay/coinsurance assistance from drug manufacturers for the specialty medication you take if it is on the Program Drug List.

If you obtain a specialty medication on the Program Drug List through the PrudentRx Program, you pay no coinsurance and no copay for the medication.

However, you pay 30% coinsurance with no out-of-pocket maximum for each prescription or refill of a specialty medication on the Program Drug List, if you do not obtain the medication through the PrudentRx Program.

**Specialty medications on the Program Drug List are only covered when obtained from the CVS Specialty Pharmacy. Specialty medications on the Program Drug List that are obtained from any other pharmacy are not covered.**

When you fill a prescription for a specialty medication on the Program Drug List at the CVS Specialty Pharmacy, you will be contacted by PrudentRx, which will help you enroll in any available manufacturer copay/coinsurance assistance programs. **If you do not obtain a specialty medication on the Program Drug List through the PrudentRx Program, or if you drop out of or do not comply with the PrudentRx Program or manufacturer rules, you must pay 30% coinsurance for your specialty medication with no maximum payment and no out of pocket limit.**

If you have any questions, PrudentRx can be reached at 800-578-4403.
